That's it, I'm looking through my files. I think the purchaser wants to know that all EPA enforcement actions have been resolved.

That's the one on Notus Rd. Does EPA have any ongoing or existing concerns with the facility?

Actually... I take that back. We had inspections and a settlement with one on Notus Road, just south of Notus and the Boise River.

Mitch,

Is that the feedlot on the Boise River? We did do an inspection and had a settlement with them several years ago if that's the same one.

Hey Nick,

Random question, but have you had any semi-recent enforcement actions on a medium AFO in Canyon County owned by Todd & Wayne Cheney? They are trying to sell the facility and the purchaser wanted to check its inspection history with all departments.

Thanks,
